Course Aim

This course will equip delegates in essential Emergency First Aid and provides all modules needed for Appointed Persons. This course is a prerequisite for Electrification courses such as Distribution Level C & D, HV Cable Competent Person and HV Cable Risk Assessor.

Key topics

- Cardio-Pulmonary Resuscitation (CPR)
- Recovery position
- Wounds
- Fractures
- Electrical accidents

Practical Element

We provide a practical demonstration on an app compatible with our CPR training manikin which provides precision training, gamified learning, and objective feedback.

Correct Chest Anatomy

- Three available chest springs allow learners to recognize different chest stiffnesses and adjust their compression force accordingly.

Realistic Airway Handling

- Training provided on correct use of supraglottic equipment with CPR training manikin, realistic airway head module.

Emergency First Aid - Prerequisites

- Must be able to read and communicate effectively in English.

Note: This course can also be combined with Manual Handling and/or Safety Licence training, please contact us with any requests you may have.
