Q&A

Forward-looking statements

Reference in this presentation, and hereafter, to the “Company” or to “SNC-Lavalin” means, as the context may require, SNC-Lavalin Group Inc. and all or some of its subsidiaries or joint arrangements, or SNC-Lavalin Group Inc. or one or more of its subsidiaries or joint arrangements.

Statements made in this presentation that describe the Company’s or management’s budgets, estimates, expectations, forecasts, objectives, predictions, projections of the future or strategies may be “forward-looking statements”, which can be identified by the use of the conditional or forward-looking terminology such as “aims”, “anticipates”, “assumes”, “believes”, “cost savings”, “estimates”, “expects”, “goal”, “intends”, “may”, “plans”, “projects”, “target”, “should”, “synergies”, “vision”, “will”, or the negative thereof or other variations thereon. Forward-looking statements also include any other statements that do not refer to historical facts. Forward-looking statements also include statements relating to the following: (i) future capital expenditures, revenues, expenses, earnings, economic performance, indebtedness, financial condition, losses and future prospects; and (ii) business and management strategies and the expansion and growth of the Company’s operations. All such forward-looking statements are made pursuant to the “safe-harbour” provisions of applicable Canadian securities laws. The Company cautions that, by their nature, forward-looking statements involve risks and uncertainties, and that its actual actions and/or results could differ materially from those expressed or implied in such forward-looking statements, or could affect the extent to which a particular projection materializes. Forward-looking statements are presented for the purpose of assisting investors and others in understanding certain key elements of the Company’s current objectives, strategic priorities, expectations and plans, and in obtaining a better understanding of the Company’s business and anticipated operating environment. Readers are cautioned that such information may not be appropriate for other purposes.

Forward-looking statements made in this presentation are based on a number of assumptions believed by the Company to be reasonable as at the date hereof. The assumptions are set out throughout the Company’s 2016 Management Discussion and Analysis (MD&A), and as updated in the first, second and third quarter 2017 MD&A and the Company’s prospectus dated April 24, 2017. The 2017 outlook also assumes that the federal charges laid against the Company and its indirect subsidiaries SNC-Lavalin International Inc. and SNC-Lavalin Construction Inc. on February 19, 2015, will not have a significant adverse impact on the Company’s business in 2017. If these assumptions are inaccurate, the Company’s actual results could differ materially from those expressed or implied in such forward-looking statements. In addition, important risk factors could cause the Company’s assumptions and estimates to be inaccurate and actual results or events to differ materially from those expressed in or implied by these forward-looking statements. These risk factors are set out in the Company’s 2016 MD&A and as updated in the first, second and third quarter 2017 MD&A and the Company’s prospectus dated April 24, 2017.

The 2017 outlook referred to in this presentation is forward-looking information and is based on the methodology described in the Company’s 2016 MD&A under the heading “How We Budget and Forecast Our Results” and is subject to the risks and uncertainties described in the Company’s public disclosure documents. The purpose of the 2017 outlook is to provide the reader with an indication of management’s expectations, at the date of this presentation, regarding the Company’s future financial performance and readers are cautioned that this information may not be appropriate for other purposes.

Non-IFRS financial measures

The Company reports its financial results in accordance with IFRS. However, the following non-IFRS measures are used by the Company: Adjusted net income from E&C, Adjusted diluted EPS from E&C, Adjusted net income from Capital, Adjusted diluted EPS from Capital, Adjusted consolidated diluted EPS, EBITDA, Adjusted E&C EBITDA, Segment EBIT and Revenue backlog. Additional details for these non-IFRS measures can be found below and in SNC-Lavalin’s MD&A, which is available in the Investors section of the Company’s website at www.snc-lavalin.com. Non-IFRS financial measures do not have any standardized meaning under IFRS and therefore may not be comparable to similar measures presented by other issuers. Management believes that, in addition to conventional measures prepared in accordance with IFRS, these non-IFRS measures provide additional insight into the Company’s financial results and certain investors may use this information to evaluate the Company’s performance from period to period. However, these non-IFRS financial measures have limitations and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS.

M&M -\$11M

Mainly due to a decrease in GM%, incl. a negative reforecast on a project in South America, partially offset by higher volume and lower SG&A.

O&G +\$90M

Mainly due to an increase in GM%, incl. a positive net amount of \$45M mainly due to commercial settlement, partially offset by lower revenues and cost and revenue reforecasts. Q316 also included unfavorable cost and revenue reforecasts.

Power -\$14M

Mainly due to a lower level of activity and a decrease in GM%, incl. a negative net amount of \$18M for cost reforecast and favorable outcome from the close-out of a project, partially offset by lower SG&A.

Infrastructure +\$8M

Mainly due to an increase in GM%, incl. a net positive impact of \$27M due to cost reforecasts and a favorable outcome on certain major projects, partially offset by a lower level of activity. Q316 also included a net positive impact from cost reforecasts and various outcomes.

Atkins +\$73M

In line with our expectations. Largest contributions from the businesses in the UK and Europe, in Energy and in North America.
